#### **DETAILED ACTION**

This action is in response to applicant's Amendment and argument filed on October 12, 2005.

Claims 1-27 stand rejected.

## Response to Amendment

1. The amendment on claim 18 has been considered and accepted.

## Response to Arguments

2. The applicants' arguments with respect to claims 1-7 and 15-27 indicate that since the application 10/061066 was file as a continuation-in-part of application 09/395235. Therefore, it must have the effective filing date of September 13, 1999, which was the filing date of the latter application. Therefore, the reference cannot be used for 102(b) rejection of application 10/061066.

The examiner respectfully disagree with the applicants. Since claims 1-7 and 15-27 are based on new subject matter in the specification of the application 10/061066 which is CIP of application 09/395235, they are not entitled to benefit of the earlier filing date. As a result, 102(b) rejection stands true for claims 1-7 and 15-27.

This application repeats a substantial portion of prior Application No. 09/395235, filed on September 13, 1999, and adds and claims additional disclosure not presented in the prior application. Since this application names an inventor or inventors named in the prior application, it may constitute a continuation-in-part of the prior application. Should applicant

desire to obtain the benefit of the filing date of the prior application, attention is directed to 35 U.S.C. 120 and 37 CFR 1.78.

3. The same arguments as indicated above were entered for claims 8-14. Therefore, the above responses apply. As a result, 103(a) rejection stands true for claims 8-14.
